

Supportive Parliamentarians for the Cystic Fibrosis Trust's campaign for access to life-saving drugs across the UK

Please take a look at the list below which includes over 200 parliamentarians from England (members of parliament, or MPs) and devolved governments of Northern Ireland (Members of the Legislative Assembly, or MLAs), Scotland (Members of the Scottish Parliament, or MSPs) and Wales (Members of Senedd Cymru, or MSs) who have been supportive of our campaign.

These parliamentarians are on the list because they have either written to or met with a constituent, showed support for the issue or taken a meaningful parliamentary action – for example, writing to a minister, asking a parliamentary question, attending a debate or signing an early day motion for Orkambi.

If you feel that your parliamentarian has been supportive of the campaign for access to life-saving drugs but they are not on the list, or if you are not sure, please get in touch so that we can add them to the list below. Please contact us at PublicAffairsTeam@cysticfibrosis.org.uk.
